

# Anti-bacteria all-purpose cleaner

A ready to use detox spray which leaves a residual antibacterial film on the surface while resisting further contamination and there is no need to wipe off! It is colourless and odourless making it ideal for food preparation areas.

bsafe™ is a family of products developed to keep you safe. We are a Yorkshire based family business with over 40 years of experience in the environmental sector and bsafe™ complements our safety range of products. Our customers remain our number one priority and by purchasing a bsafe™ product you will be protected.

## Features

- Kills 99.9% bacteria and enveloped viruses
- RTU (ready to use) no need to dilute
- Trigger spray for easy application
- Alcohol-free
- Fragrance free
- Safe on plastics, paintwork, metal, cloth and rubber

## Benefits

bsafe™ alcohol-free multi surface cleaner is an easy to use product that can be directly sprayed on to surfaces to effectively neutralise bacterial and fungal contamination.

Great for use in gyms, restaurants, nurseries, schools, hotels and food preparation areas leaving areas looking clean and bacteria free.

Meets the requirements of EN1276, EN1650, EN13697 and EN 14476 and is supported under the Biocidal Products Regulations.
